

Stoneleigh Shade Trees

All Stoneleigh Trees:

- Raise your property value.
- Lower your electric bill.
- Beautify your home.
- Clean your air.
- Support Wildlife.
- Cool our neighborhood in summer.

Nurturing our Trees

The community has been planting new shade trees since 1999. Stoneleigh families, Boy Scout Eagle projects, volunteers with Bluewater Baltimore have all helped to plant the trees. The majestic old trees that line our streets were planted by early Stoneleigh residents. Some of the oldest trees date from the 19th century when Stoneleigh was the "Brown Estate."

Young trees require care and water; they repay us with shade and beauty.

Canopy Shade Trees

Stoneleigh has an active tree planting program in which you can have a shade tree planted in your yard for only \$100 per tree.

The balance of the cost of the tree comes from the annual Dumpster Day fundraiser, Community Association dues, and donations from individuals.

Choose among Willow Oak, Red Oak, Tulip Poplar, London Plane, Black Gum, Serviceberry, American Holly, American Elm and others.
